FFN
FRAGILITY FRACTURE NETWORK (INDIA)

Combined Conference of
6th Annual Conference of Geriatric Orthopaedic Society of India,
1st Annual Conference of Fragility Fracture Network (INDIA) and
Current Concepts in Arthroplasty 2018
[GOSICON-FFN-CCA]
6-9th September, 2018
New Delhi

Dear Friends,

The Geriatric Orthopaedic problems are on the rise with an ever increasing proportion of our population comprising of our elderly. Geriatric Orthopaedics is a highly specialized field demanding specialised training and orientation. The care of these patients is multidisciplinary involving significant contribution from Geriatricians, Intensivists, Physiotherapists and specially trained nurses as well. In order to provide you with insight into this important and complex field, Orthopaedic Research Society and the Department of Orthopaedics at All India Institute of Medical Sciences is organising the 6th Annual Conference of Geriatric Orthopaedic Society of India (GOSICON). I have taken this opportunity to combine this important meeting with the 1st Annual Conference of Fragility Fracture Network (INDIA). The New society is a natural ally of any organisation that deals with the geriatric skeleton. Following this twin event in tandem will be the "Current Concepts in Arthroplasty (CCA) 2018" - a signature event organised by us every year to showcase the advances in the field of Arthroplasty. The Theme this year is "From Immobility to Mobility- No Age is a bar to Walking".

The four day academic extravaganza will unfold with Cadaver Courses on Thursday (6th September, 2018) morning. The next two days will host GOSICON and beginning Saturday afternoon till Sunday afternoon, the CCA will captivate you with a series of live surgeries. You could register for the three mega events namely Cadaver Course, GOSICON/FFN, and CCA, jointly, severally, or in any combination.

The conference will comprise of Keynote Addresses, Live Surgeries, Panel Discussions and Breakaway Sessions. There will be a dedicated session for FFN as well. We hope to attract the participation of not only the Orthopaedic surgeons but also the Geriatricians, Anaesthetists, Physiotherapists and Nurses and I can assure you that there is a lot for everyone to gain from this mega event. The faculty will comprise of renowned care providers from all the world over and I am sure you every one would love interacting with them.

I look forward to welcome you all in person during this academic extravaganza.
